

Expand MediaWall Display Case & Shelves

Communicate your brand & display your products with one solution.

Integrate your products in your display wall

Add one or several display cases to the pop up wall Expand MediaWall, to both communicate your brand and display your products. The display case can be placed in the top, middle or bottom of the wall. It's foldable and you install it in your Expand MediaWall in seconds. The display case is delivered in a bag.

Support feet are available for extra stability and is especially recommended for the straight Expand MediaWall.

Add shelves

Add one or several shelves to your display case. Can be placed flat or on an angle (be advised shelves should only lay flat in a curved wall). The shelf comes in a protective nylon case.

Add lights

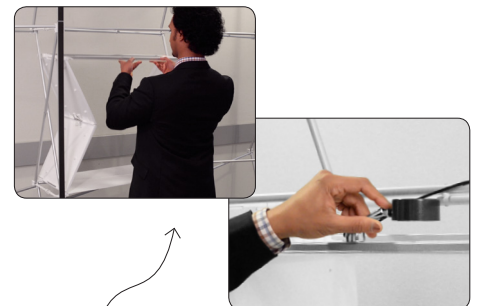

Add one or two LED spotlights to highlight the products you display. Position them on the top of the display case with a click (magnetic).

Set up of an Expand MediaWall without display cases

The display case is added before you mount the graphic panels to your wall. (The graphic panel has a rounded cut out for your display case).

Just unfold the display case and install it within seconds. Position LED spotlights on top of the display case with a click (magnetic).
